

Denial Population Demographics: This is a complete dataset of all denials issued in the program by race and ethnicity, as self-reported by tenant applicants in the applications.

This only represents tenant applicants, as this information was not collected from landlords. The dataset shows what percentage of the total denials were completed for each race and ethnicity tracked. This information will adjust as the pending applications receive final determination and the total number of denials increases.

Pending Applicant Data Table: This is a complete data set of all applications that have not yet received a final determination and are still open and in processing in the California COVID-19 Rent Relief Program. This includes applications that were not previously denied due to the court ordered injunction that prevented denials between July 2022 and June 2023, as well as pending appeals. The total number of Case IDs will not change, however, cases should move from status to status as they are resolved and receive a final determination.
